

JY Display & Signs

TOTAL PANEL AREA
900mm x 300mm

We don't recommend printing all the way to edge due to peeling, misalignment or other factors that may impact the decal/SAV's performance.

RECOMMENDED GRAPHIC AREA
890mm x 290mm

This area maintains a 5mm margin from the edge to ensure a precise fit and accommodate any misalignment, trimming errors, or other installation issues.
For optimal graphic coverage, print up to this margin.
